To Whom It May Concern:

It has been a pleasure working with the OrgSync team over the past year. The commitment to excellence and hands-on approach OrgSync has working with clients is rare to find in this day and age. Often times I will call the support team with questions and I am continually greeted with kindness and a sincere care for my successful application of the OrgSync software. Thanks to OrgSync, we are now able to track our students' involvement, including what students are involved, and the organizations which they decide to participate in. The database work that we are able to do through OrgSync goes a long way in our continued efforts to support positive co-curricular involvement opportunities for our students.

OrgSync's recent visit to the University of San Francisco was an invaluable experience for our faculty, students and staff who were able to participate in the day's program. In our department meeting with the OrgSync team, we were able to talk through many of our experiences using the product, get first-hand suggestions on ways we can expand our use of the system and get insight on some of the initiatives being worked on for the future. Students appreciated the opportunity to meet the creators of the product that they use on a regular basis as well.

OrgSync has went beyond anything we could have imagined in meeting the day-to-day needs of our department and our students. We have seen OrgSync work in support and collaboration with other on campus departments and we are excited about our continued partnership with this company in the future. If you have any questions about my experience working with this company, please do not hesitate to contact me at depierre@usfca.edu.

Sincerely,

Darren Pierre
Coordinator for Student Organizations, Advising and Involvement
University of San Francisco
